## SEARCH ENGINE OPTIMIZATION (SEO)

Search Engine Optimization (SEO) is a program of various strategies to improve the search rankings and Visibility of a website in all major search engines. Search engine optimization (SEO) is a crucial part of any digital marketing strategy for driving organic traffic from search engines. **THINK UNITED SERVICES** offers High-Quality SEO solutions tailor-fit to your business needs for any industry website. Our goal is to provide digital marketing solutions that meet and exceed industry expectations.

## WHAT WE DO

### WE DELIVER PAGE 1 RANKINGS.

Hire our award-winning SEO experts to place your highly competitive keywords on the first page of Google, Yahoo, and Bing.

Our Experts pore over every Meta element. On-page optimization involves updating your website methodically to increase its online Visibility for those searching for the products or services you offer. Search Engine Optimization (SEO) requires significant time and skills to produce a competitive strategy for the digital marketplace. The structure of a webpage and its content is only a piece of the SEO puzzle but an essential piece. We perform best-in-class optimization with our proven techniques.

### HIGH-QUALITY WHITE HAT LINK BUILDING

Whether you're new to link building or have been doing it for a while, we're sure you'll find something helpful in this guide. SEO and link building are constantly changing; today, the importance of link building high-quality links has never been higher.

THINKUNITED SERVICES will point out all of the most common myths and assumptions about how SEO works and debunk them for your Business, so you should save time on things that are helpful for every Business.

Let's get started Here: <https://thinkunitedservices.com/>.

We understand your needs.

## TOP BENEFITS OF SEO TO YOUR BUSINESS

### ► Getting Customers from World Market

Internet marketing provides businesses with a broad base of customers for their services or products. With the internet, all companies, from multinationals to small and medium enterprises, have access to millions of prospective customers

### ► SEO Builds Brand Credibility

TOP Rankings are significant to point out. Second or third may give your customers the idea that you are one of the leading companies in your industry, and it shows that you are popular and that many users have researched you, too.

### ► SEO Is a Primary Source of Getting Leads from the World Market

Inbound strategies are the most effective and successful source of getting leads among Business to Business (B2B), Business to Customer (B2C) and non-profit organizations. Inbound includes search engine optimization, social media, content marketing, referrals, and others.

### ► SEO Brings Higher Conversion Rates

Customers make the actual research on each SEO leads to get their products or service, which results in higher conversion. These individuals making their research online already have a specific requirement and purpose in mind. A good ranking of your site on any search engine can guarantee high conversion rates. Your target market will become more aware of you if you maintain your top position.

### ► SEO Helps Establish Brand Awareness

Brand Awareness is the extent to which the target market recognizes a brand. This refers to how familiar your customers are with your product or services.

SEO Ensures the Mobile Friendly of Your Website. SEO improves the user experience because Google Search has included another parameter as a ranking signal and this refers to the friendliness of websites to mobile devices.

### ► SEO Helps 24/7 Business from WORLD Market

With online marketing campaigns, one will advertise their Business 24 hours daily. Furthermore, you will be OK with staff wages and store hours. Additionally, the time variations in the different parts of the world will not affect your campaigns. Your target customers can access your website and purchase goods and services irrespective of the time or fear of closing hours.

### ► SEO Helps to Run Low-Cost Campaigns for Getting Good Results

Brand Awareness is the extent to which the target market recognizes a brand. This refers to how familiar your customers are with your product or services.

SEO Ensures the Mobile Friendly of Your Website. SEO improves the user experience because Google Search has included another parameter as a ranking signal and this refers to the friendliness of websites to mobile devices.

## SEO APPROACH

### Discovery

Our Discovery phase refers to understanding where the website is, and where its end goal is (Research and Analysis).

- Google Analytics Setup
- Google Search Console Setup
- Website Audit
  - Browser Compatibility
  - Page Weight/Speed
  - Meta Tags
  - Keyword Density
  - Backlinks
- Competitor Audit
  - Keyword & Traffic Comparison
- Industry Audit
  - Competitive Analysis
  - Search Volume

### On-Page

On-Page refers to settings you can apply on your website so that it's optimized for search engines. The On-Page techniques are:

- Optimize titles and descriptions
- Ensure Proper URL Structure
- Implement user-friendly navigation
- Optimize internal links
- Text Formatting
- Image optimization
- Implement user-friendly 404 pages
- Improve page load speeds
- Improve Mobile page UI
- Top quality fresh content
- External links

### Off- Page

off- page are techniques we perform outside the boundaries off your webste - giving the search engine a very good indication.

- Google Analytics Setup
- Tracking Analytics
- Off-site Blog Post
- Off-site Article Post
- PPT Distribution
- Image Distribution
- DOC/PDF Submission
- Viral Bookmarkig
- Forum Discussions
- High Quality Social BookMarking
- Classifieds Distribution
- Blog Comment Posts
- Infographics Distribution

## DEVELOPMENT APPROACH

### Discovery

Our Discovery phase refers to understanding where the website is, and where its end goal is (Research and Analysis).

**Perfect When**

- You don't have clear goals
- You need a proof of concept for testing or stakeholder buy-in
- You're not sure what you want

### DEVELOPMENT

Our project-based work is best summed up in four words: You define, we deliver. Tell us your goals and what you're hoping to achieve, and we'll make it so. It's that simple. From initial scope to final implementation and beyond, we offer a one-stop development solution that runs the gamut of scope and industry.

**Perfect When**

- You don't have your team but need a turn-key solution
- Your team is too busy to take on additional projects
- You have pre-set goals and need a team to meet them

### Maintenance

Worried you'll miss us after your project wraps? Well, fear not. We offer a customizable service model that keeps us in touch and your website supported after launch. 24-hour support, quality assurance, DevOps, and project management — choose only the services you need when you need them.

**Perfect When**

- You're having trouble hiring or retaining development staff
- You don't want to distract your existing in-house team with new projects
- You need to scale fast and can't wait around for a lengthy hiring process

## LOOKING AHEAD WITH INTERNET MARKETING

### Did You Know?

More than 360 million people came online for the first time in 2018, at an average rate of more than 1 million new users daily. That means that 57 percent of the world's population is now connected online.

The average internet user now spends more than 642 hours online each day, meaning the world's digital community will spend more than 1.2 billion years using the internet in 2019.
